

7th Neurosurgical Skull Base Course Masterclass

Hôpital Lariboisière
Neurosurgical Institute, Paris
5 & 6 April 2019

Training Objectives

This training which will take place at the Hôpital Lariboisière is organized by Medtronic and the participants will have the opportunity to increase surgical skills in Anterolateral skull base.

Participants in the laboratory hands-on component of the course will have ample opportunity to dissect cadaveric specimens and to utilize Midas Rex powered instrumentation systems in the process.

After attending the course, participants should have an enhanced understanding of the benefits of utilising surgical solutions (powered instrumentation) and their possible

Faculty

Professor Sebastien Froelich
Professor and Chairman
Department of Neurosurgery
Lariboisière University Hospital
Assistance Publique – Hôpitaux de Paris

Venue

Hôpital Lariboisière - Neurosurgical Institute
Yellow Sector – Door 10 – 3rd Floor
Rue Ambroise Paré, 2
Paris 75010
France

Logistics

Accommodation

Hotel L'Echiquier Opéra Paris
38 rue de l'Echiquier
Paris 75010
France

AGENDA

Day 1 – Friday 5th April: General principle / Anterolateral skull base

07:45	Meet in the hotel lobby to take a transfer to Hôpital Lariboisière - Neurosurgical Institute	
08:00	Welcome introduction - course program	Professor Sebastien Froelich
08:05	Live surgery - case presentation <ul style="list-style-type: none"> • Live surgery in the auditorium and laboratory • Operating room observer: Optional 	Professor Sebastien Froelich
08:15	General principle of drilling - TIP & TRICKS <ul style="list-style-type: none"> • Holding the drill • Choosing the drill bit • Unroofing a bone canal • Extradural versus intradural drilling 	Professor Sebastien Froelich
08:30	Lateral skull base – part 1 <ul style="list-style-type: none"> • Posterior petrosal approach • • Anterior lateral approach 	Professor Sebastien Froelich
09:15	Coffee Break	
09:30	Practical session on specimen	
12:45	Lunch	
13:30	Lateral skull base – part 2 <ul style="list-style-type: none"> • Anatomy of Rhomboid region • • Anterior petrosectomy 	Professor Sebastien Froelich
14:00	Practical session on specimen	
17:30	End of Day 1 & transfer to Hotel	
19:55	Departing from the Hotel's lobby to walk to Brasserie Julien	
20:00	Group Dinner at Brasserie Julien (16 rue du Faubourg Saint-Denis 75010 Paris)	

Day 2 – Saturday 6th April: Lateral skull base drilling

08:15	Meet in the hotel lobby to take a transfer to Hôpital Lariboisière – Neurosurgical Institute	
08:30	Live surgery -Discussion	Professor Sebastien Froelich
08:50	Anterolateral skull base – part 1 <ul style="list-style-type: none"> • Fronto orbitozygomatic approach • Peeling of the Cavernous sinus wall • Anterior clinoidectomy 	Professor Sebastien Froelich
09:45	Coffee Break	
10:00	Practical session on specimen	
12:30	Lunch	
13:15	Theoretical session <ul style="list-style-type: none"> • Combined petrosal approach • Monitoring in lateral skull base surgery 	
13:45	Practical session on specimen	Professor Sebastien Froelich
16:00	Conclusion	
16:15	Transfers to airports/train station
